THANK YOU!

A Tide turners Challenge Initiative by St. Ann's College for Women, Hyderabad.
In collaboration with Dharini Eco Club

During this challenge we had three levels to complete-

1. Entry level- Activities are designed to get you thinking about your own consumption and what simple actions you can take to reduce single-use plastic from your day-to-day life.

2. Leader level- with the leader level activities, you will delve deeper to explore, investigate and take action about single-use plastic consumption and its management within your home, neighbourhood or at a community level.

3. Champion level In the Champion level, you will be ready to scale-up efforts to make a greater impact. Activities would include taking action to promote sustainable consumption & production by influencing consumers and businesses. You will educate others and continue your advocacy efforts by turning your learnings and actions into educational assets like videos, comics, storybooks, GIFs etc.
