In Collaboration with Institute of Nutrigenetics

**Mode of Conduct:** Fully Online Duration: 45 days/Self paced course

# CERTIFICATE COURSE

# EXPERIMENTAL BIOCHEMISTRY

Department Of Biochemistry  
St. Ann's College For Women  
Accredited 'A+' Grade by NAAC (3rd Cycle),  
CPE by UGCISO 9001:2015 & ISO 14001:2015  
Mehdipatnam ,Hyderabad

www.stannscollegehyd.com

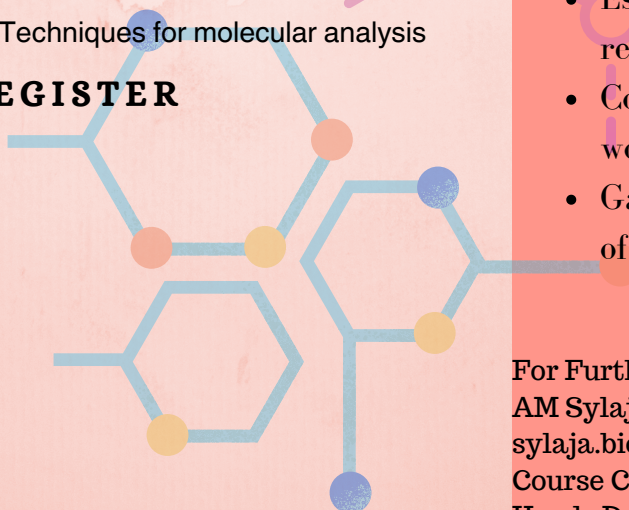

**OFFERED BY DEPARTMENT OF BIOCHEMISTRY**

## Salient Features

- 🔬 Comprehensive coverage of Basic Biochemical Techniques
- 📚 Balance of Theory and Practical Classes
- 💡 Exposure to diverse Experimental Techniques and Instrumentation, including GLP standards
- 👏 Hands-on training in Experimental Biochemistry
- 🧪 Understanding of fundamental concepts like Mole, Molarity, Normality
- 🔧 Learn to Prepare Buffers and Standard Solutions
- 🌈 Explore Colorimetry for precise analysis
- 🌐 Master Chromatographic Techniques for separation and identification
- ⚡ Discover Electrophoresis Techniques for molecular analysis

**LAST DAY TO REGISTER  
JUNE 15, 2024**

**DURATION  
30 HRS (2 HRS/WEEK)**

**July -October 2024**

## ELIGIBILITY

**OPEN TO DEGREE II & III YEAR  
ALL LIFE SCIENCES  
( EXCEPT BIOCHEMISTRY)**

## BENEFITS

- Essential requisite to get into research work
- Confidently Carryout Project work
- Gain 2 Credits after Completion of the course

Mehdipatnam, Hyderabad - 500028

## Department of Microbiology Offers

# CERTIFICATE COURSE IN BASIC MICROBIOLOGY TECHNIQUES

Course provides thorough knowledge on general microbiology concepts and hands on training on enrichment, isolation & identification of microorganisms.

### Course Module

- Introduction to Good Laboratory Practices
- Reagent Preparation In Microbiology
- Sterilization Techniques
- Culture Media (Solid/Liquid) preparation and its types
- Various methods for isolation of Cultures( Streak, Spread and pour plate techniques)
- Isolation and Culturing of microbes from various samples (Soil, Water, Air)
- Purification of bacterial colonies from mixed population
- Microbial Enumeration Techniques and CFU ( Colony Forming Unit) Count
- Microscopy –Principle & Working of Light Microscopy
- Staining techniques
- Identification of microorganisms by Biochemical methods
- Antimicrobial Susceptibility tests( Kirby-Bauer Method)

### Target group/Eligibility

- B.Sc Lifesciences second & final years (for non-microbiology students)

### Duration

- July to October ( 3 months)
- 30 Hours (including hands on sessions)

### Mode of conduct

- Offline
- Saturdays (12:30PM - 2:30PM)

### Application deadline

- 20 June 2024

# CLOUD COMPUTING

The course aims to provide participants with a deep understanding of Cloud computing - AWS, covering essential theoretical concepts and practical applications. Participants will engage in hands-on learning experiences, enabling them to develop relevant skills and competencies required in the industry.

**Duration:** 4 Months

**Eligibility Criteria:** Any UG/PG student

**Curriculum Highlights:**

1. Cloud Computing Introduction
2. AWS Overview
3. Networking
4. Compute
5. Storage
6. Identity and Access Management
7. Monitoring
8. Security
9. Database
10. Other Services

**Key Deliverables:**

1. Two Mini-projects and one Major Project
2. Doubt session at the end of the sessions.
3. Weekly recap plan
4. Assignment for Every module
5. Documentation for all the modules
6. Delivery of Sample resumes with respect to specific course.

### **Mode of Delivery:**

The course will be delivered through a combination of lectures, workshops, practical sessions, and guest lectures by industry experts with Hybrid Format.

1. Online – 2 hours in a week
2. Offline – 1 hour a week.

**Certification:** Upon successful completion of the course requirements, participants will be awarded a Project Completion Certificate in Cloud Computing Technology – AWS.

**Faculty:** Our esteemed faculty members bring a wealth of academic expertise and 4+ years of industry experience to guide participants through their learning journey.

**Career Opportunities:** Graduates of this program will be equipped to pursue a variety of career paths in Cloud Computing Technology.

**Course Fee:** 4000/- Per student

**Important Dates:** Course will kick-start in the month of July, 2024.

# FULL STACK WEB DEVELOPMENT

**Course Overview:** The course aims to provide participants with a deep understanding of Full Stack Web Development, covering essential theoretical concepts and practical applications. Participants will engage in hands-on learning experiences, enabling them to develop relevant skills and competencies required in the industry.

**Duration:** 4 Months

**Eligibility Criteria:** Any UG/PG student

**Curriculum Highlights:**

1. HTML
2. CSS
3. JavaScript
4. Node JS
5. MYSQL

**Key Deliverables:**

1. Two Mini-projects and one Major Project
2. Doubt session at the end of the sessions.
3. Weekly recap plan
4. Assignment for Every module
5. Documentation for all the modules
6. Delivery of Sample resumes with respect to specific course.

### **Mode of Delivery:**
