OBJECTIVES

- To maintain and regularly update the college website with accurate and relevant information.
- To ensure reliable and seamless Wi-Fi connectivity across the campus.
- To develop high-quality e-content, including video lectures and digital learning materials.
- To facilitate e-casting of educational and general interest content through digital display systems.
- To facilitate multimedia and digital works in organizing national and international seminars, conferences, and workshops.
- To implement an effective communication system for sending SMS alerts to students, parents and alumni.
- To organize training programs and workshops on emerging trends and advancements in Information and Communication Technology (ICT).
- To encourage and support students in participating in the “Work-Integrated Learning Program” program.
- To maintain and upgrade IT infrastructure regularly.
- To assist in live streaming of academic and institutional events.
- To create and manage official social media and online presence of the institution.
- To encourage innovation and digital project development among students.
- To support hybrid and online teaching methodologies.
- To ensure data security and privacy of institutional digital resources.

Tasks and Responsibilities

Major Events undertaken by ICT in the academic year 2025-26:

- ❖ Canonical Visitation
- ❖ Saif Inauguration
- ❖ Alumni Annisorie
- ❖ International conference
- ❖ Convocation
- ❖ Youth Parliament
- ❖ Website Updation
- ❖ TV Display

Website and App Maintenance and Upgrades

- Ensured regular and timely updates of the college website to maintain accuracy and relevance of information.
- Developed and integrated new website tabs based on institutional requirements, including sections for Cluster Colleges, IGNOU, NIRF, and other key initiatives.
- Provided prompt updates on campus activities, including events, examination schedules, student notices, and official circulars, ensuring effective communication with stakeholders.
- Managed and updated links to the college's social media platforms, enhancing online presence and engagement.
- Maintained a centralized online repository of faculty-developed e-content under the E-Resources section for easy access and academic support.
- Regularly updated information on the student mobile application, ensuring students receive real-time notifications and important updates.

Domain Assistance

- Created official institutional email IDs for students, faculty, and staff using the college domain.
- Ensured proper naming conventions and standardization of email IDs.
- Managed bulk creation of domain accounts for new admissions and staff on boarding.
- Enabled official communication through domain email IDs for academic and administrative purposes.
- Configured domain email accounts with necessary settings (passwords, recovery options, security settings).
- Assisted users in logging in and accessing their domain accounts for the first time.
- Integrated domain IDs with institutional platforms such as LMS and online portals.

Events and Competitions

1. Cybersecurity Quiz Activity - Kahoot

Date of Activity: 15/09/2025

Class: M.Sc. (Artificial Intelligence & Machine Learning)

Venue: Classroom

No. of Attendees: 11

Introduction:

To enhance awareness and understanding of cybersecurity concepts, a **Quiz Activity** was organized for the students of M.Sc. (AI & ML). The activity was conducted using the **Kahoot platform**, which provided an interactive and engaging experience for all participants.

Objective: The main objectives of the activity were:

- To assess the knowledge of students on cybersecurity fundamentals.
- To promote interactive learning through gamification.
- To encourage active participation and healthy competition among students.

Description of the Activity:

- The quiz was conducted on **Kahoot**, an online quiz platform.
- Students participated individually using their devices.
- The quiz consisted of multiple-choice questions covering topics such as:
 - Cybersecurity fundamentals
 - Types of cyber threats
 - Online safety practices
 - Data protection and privacy
- The platform displayed live scores after each round, which made the activity highly engaging and competitive.

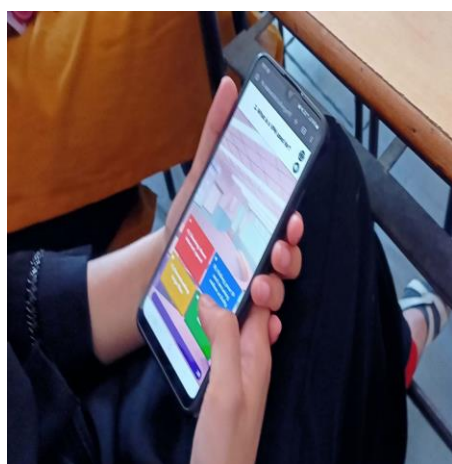

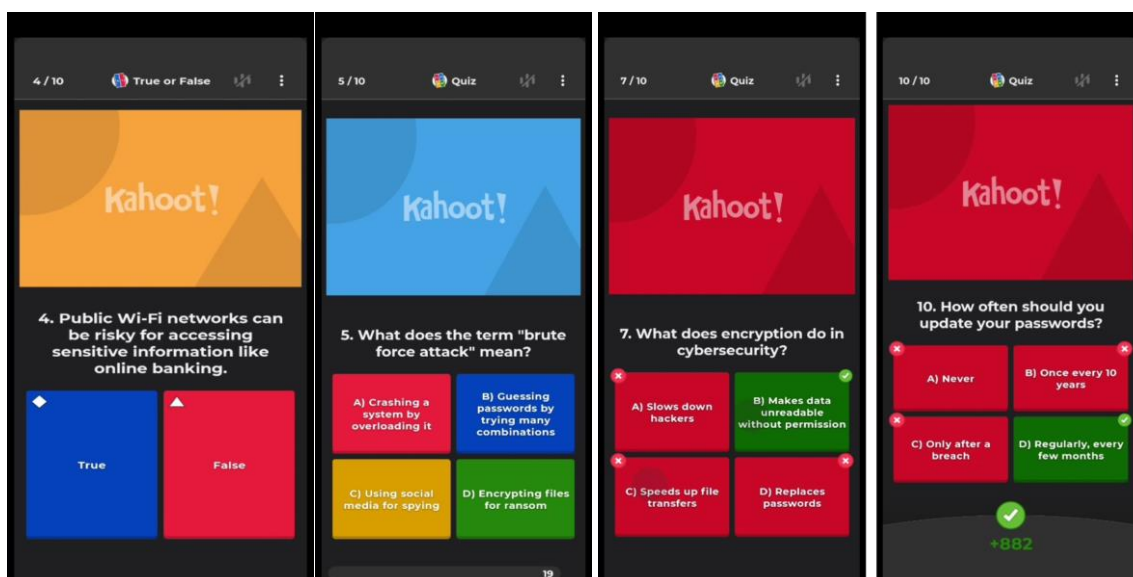

ST. ANN'S COLLEGE FOR WOMEN
(Autonomous), Affiliated to Osmania University
Accredited by NAAC 'A' Grade (4th Cycle), CPE by UGC
Mehdipatnam, Hyderabad, Telangana, India

Outcome:

- Students enthusiastically participated and showcased their knowledge.
- The quiz helped in revising key cybersecurity concepts in an interactive way.
- Top performers were appreciated for their quick thinking and accuracy.
- Overall, the session was successful in meeting its objectives of **learning through fun**.

2. YOUTH EMPOWERMENT SEMINAR

“THE ART OF LIVING”

Date: 14-11-2025

Venue: St. Ann's College for Women

Time: 10:30 am to 11:30 am

Organized by: Department of Computer Science & ICT Centre

The Department of Computer Science in collaboration with the ICT centre organized a Youth Empowerment Seminar titled “The Art of Living”, aimed at helping students understand the importance of mental well-being and a balanced lifestyle. The seminar was conducted by experienced trainers and professionals associated with The Art of Living, who shared valuable insights on leading a healthy, focused, and peaceful life.

The speakers—Ms. Karuna Sree, Ms. Surya, Ms. Nischala, and Ms. Vibha Sukh—addressed several key aspects of personal development. They discussed the significance of mental health, highlighting how stress, lack of clarity, and negative emotions can affect overall productivity and happiness. The session emphasized the importance of concentration and focus, especially for students managing academic and personal responsibilities.

The resource persons shared practical tips on maintaining a positive lifestyle, building confidence, and managing challenges with a calm and clear mindset. Students were encouraged to adopt healthy habits that support their academic growth and personal well-being.

Overall, the Youth Empowerment Seminar was an inspiring and enriching experience. It provided students with helpful tools to improve their mental health, enhance concentration, and lead a more balanced and fulfilling life. The session was greatly appreciated by the participants for its relevance, practicality, and motivational guidance.

3. Report on Cryptic Run (The Digital Treasure Hunt)

Date: 22/12/25

Venue: Computer Science Lab (UG) / UG class rooms

Topic: Cryptic Run - A Digital Treasure Hunt

Participants: All UG Students- 14 groups (each group with 2 participants)

Faculty Coordinators: S.Santhoshi Rupa, Ms.K.Rajeswari

Student Coordinators: Sangeeta, Ifra, Insiya and Ayesha- BCA 1st year

Introduction

As part of Annofesta, the ICT and the Department of Computer Science organized a Cryptic Run (Treasure Hunt) competition for all UG students.

The competition aimed to encourage logical thinking, problem-solving skills, and teamwork among students through a fun and engaging digital hunt.

The event witnessed enthusiastic participation from students across various departments and created a lively and competitive atmosphere on campus.

Description of the Event

Cryptic Run was designed as a campus-wide digital hunt where clues were spread throughout the campus. The competition consisted of 15 cryptic clues, with each clue leading participants to the next location. Participants had to carefully analyze, decode, and solve the clues to move forward in the hunt.

A total of 14 groups actively participated, displaying great enthusiasm, coordination, and teamwork. The event tested the participants' logical reasoning, presence of mind, and ability to

Mehdipatnam, Hyderabad, Telangana, India

work efficiently under time pressure. The campus-based clue locations made the event more engaging and interactive.

Outcome of the Event

The event successfully enhanced students' analytical thinking, teamwork, and problem-solving abilities. It provided a unique learning experience by combining technology with fun and exploration, making the event both educational and entertaining.

Conclusion

Cryptic Run – The Digital Hunt was a well-organized and enjoyable event conducted as part of ANNOFESTA. It offered students an opportunity to apply their logical and technical skills in an exciting environment and was appreciated by all the participants.

Managing Online Presence of the College

- The ICT and Social Media Cell is responsible for managing and regularly updating the college's social media platforms, ensuring consistent digital engagement and visibility.
- Live streaming of seminars, workshops, and conferences is carried out through the official college YouTube channel, enabling wider access and participation.
- Regular updates on campus events and activities are shared through the college's Facebook, Twitter, and Instagram accounts to keep stakeholders informed.
- A dedicated LinkedIn alumni page is maintained to strengthen connections between students, alumni, and industry professionals.
- All pre-event and post-event content related to the Institution's Innovation Council (IIC), including photos and videos, is consistently uploaded and managed across social media platforms such as Facebook, Instagram, and Twitter.

LMS Management and Institutional ID Provisioning

- Facilitated the implementation and effective utilization of the Learning Management System (LMS) to support digital teaching and learning.
- Created and managed institutional user IDs for faculty and students, ensuring secure and standardized access to academic platforms.
- Configured LMS accounts and enrolled users in relevant courses, enabling seamless participation in online classes and activities.
- Provided technical support and guidance to users for LMS access, navigation, and usage.
- Ensured timely on boarding of newly admitted students and newly appointed faculty by generating and distributing login credentials.
- Monitored and maintained user account data, including updates, modifications, and deactivation of inactive accounts.
- Integrated institutional IDs with various digital tools and platforms such as email services, virtual classrooms, and online assessment systems.
- Promoted the effective use of LMS features, including assignment submission, content sharing, quizzes, and grading systems.
- Maintained data security and confidentiality by implementing proper authentication and access control measures.
- Coordinated with departments to collect user information and ensure smooth account provisioning.
